About logo

The logo on the site was created by artificial intelligence and represents a mix of three animals: [Grimpoteuthis](#) (dumbo octopuse), [Owl](#) and [Penguin](#).

Why:

- Octopus symbolizes **wisdom, intelligence, and complexity**.
- Owl symbolizes **wealth, prosperity, wisdom, good luck, and fortune**.
- Penguin symbolizes **dreams, adaptability, dual-natures, closeness, family, and spirituality (and Linux 😊)**.

Also, I have to give a special place to the [platypus](#) and [wolf](#), which is one of my favorite animals, platypus symbolizes **creativity, uniqueness and self-acceptance** and wolf symbolizes **loyalty, family, communication, wisdom, teaching, and intelligence**.
